Tom:

On behalf of the parties that signed the Settlement Agreement and Order in September 2005 (OU1 RI/FS Settlement), this afternoon we are mailing out a partial response to your letter of June 12, 2006, which requested various additional categories of documentation if it was available to the settling parties.

Without limitation or waiver of any potential objections that the settling parties may have individually or in the aggregate, we are providing a pair of CDs that include the following materials: reports of sampling conducted at DGSD, Fusibond, Magnetrol and Sterling Park, and copies of expert reports on technical issues submitted by various defendants in the Muniz litigation.

Individual settling parties may provide additional party/property specific information. However, because of time pressures they are all facing in Ellsworth related litigation matters, we anticipate it will be several weeks before any such individual responses are provided. Any objections on their behalf are expressly reserved.

If you have any questions, feel free to call

Bruce
